Synteraction Lab, Smart Systems Institute, National University of Singapore, City University of Hong Kong

How can we leverage AI to assist people in documenting high-quality stories of their daily activities, like travels, without detracting from the experience?

We introduce *PANDALens*, a **P**roactive **A**I **N**arrative **D**ocumentation **A**ssistant built on an **Optical See-Through Head-Mounted Display** (AR smart glasses, OST-HMD, OHMD) that transforms the in-context writing tool into an intelligent companion during daily activities.
